In determining whether a matter falls to be decided by the PLC Board under this Schedule (both as to control and materiality) the Board shall have regard to the Levels of Authority set out in the Schedule below.

Levels of Authority

Introduction

No matter how effective a Board of Directors may be it is not possible for it to have hands-on involvement in every area of the Company's business. An effective Board controls the business but delegates day to day responsibility to the executive management. That said, there are a number of matters which are required to be or, in the interests of the Company, should only be decided by the Board of Directors as a whole. It is incumbent upon the Board to make it clear what these matters reserved for the Board are. The FRC's Guidance on Board Effectiveness (2018) states that:

"Ensuring there is a formal schedule of matters reserved for its decision will assist the board's planning and provide clarity to all over where responsibility for decision-making lies."

The UK Corporate Governance Code July 2018 (the "Code") also states that:

"A successful company is led by an effective and entrepreneurial board, whose role is to promote the long-term sustainable success of the company, generating value for shareholders and contributing to wider society. Companies do not exist in isolation. Successful and sustainable businesses underpin our economy and society by providing employment and creating prosperity. To succeed in the long-term, directors and the companies they lead need to build and maintain successful relationships with a wide range of stakeholders. These relationships will be successful and enduring if they are based on respect, trust and mutual benefit. Accordingly, a company's culture should promote integrity and openness, value diversity and be responsive to the views of shareholders and wider stakeholders."

In drawing up a Schedule of Matters reserved for the Board it is recognised that it is important to establish procedures for dealing with matters which need to be dealt with urgently between regular Board meetings. In these circumstances, it is proposed that a telephone or video conference meeting should be held in which as many directors as possible participate or an email circulated with full details seeking responses, with a call arranged if necessary. This allows directors the opportunity to discuss the matter and ask questions. Any director who cannot attend any call will still be sent the relevant papers and have the opportunity to give their views to the Chairman, another director or the company secretary before the meeting. If the matter is routine and discussion is not necessary, the approval of all the directors may be obtained by means of a written resolution. In all cases, however, it is recognised that the procedures should balance the need for urgency with the overriding principle that each director should be given as much information as possible, the time to consider it properly and an opportunity to discuss the matter prior to the commitment of the Company.

As Henry Boot PLC carries out no operational activities, operational decisions by the subsidiaries are reached by each subsidiary Board in consultation with the PLC executive directors. As such, the PLC Board may approve certain Levels of Authority in relation to which directors of subsidiary companies have authority to act, individually or in conjunction with other directors of that or other subsidiaries (as applicable). All decisions on major capital projects (as defined below) and/or significant decisions are the subject of a Board Report agreed by the subsidiary Board and presented to the PLC Board for approval before any matter progresses. This means that PLC Board approval should be obtained prior to contractual commitment of the relevant subsidiary company to substantive involvement in the relevant matter. The Board will be kept informed of progress on all significant matters.

Levels of Authority

The present Levels of Authority for matters reserved to the PLC Board are:

1. (For Henry Boot Construction Limited) - A construction contract with an expected turnover at

or in excess of £10m.

2. (For Henry Boot Developments Limited) - Development opportunity with a site value at or in excess of £10m or an expected Gross Development Value at or in excess of £35m. Investment property acquisition at or in excess of £10m.
3. (For Hallam Land Management Limited) – Land acquisition where initial price is at or in excess of £4m. PPA or Option agreement at or in excess of £2m.
4. (For Stonebridge Homes Limited) – Land acquisition at or in excess of £10m or where an acquisition would exceed maximum loan commitment. Strategic land investment at or in excess of £2m.
5. (For Banner Plant Limited) - None.

Also, at the same time as considering any matters falling under the above categories, consideration should be given as to whether the matter would involve a commitment which would take the Company's gearing above 30%.

Except for Stonebridge Homes Limited, all the values stated refer to the level of Henry Boot funding only, as opposed to a combined funding total. With regards to Stonebridge Homes Limited, the values stated refer to the entity level investment. All values are applicable at the time of entering into a contractual agreement.

Please note that projects that fall below these Levels of Authority but are particularly risky, carry the potential for reputational damage or are outside of the ordinary course of business should also be brought for Board approval, in line with the requirements of the main body of the Schedule of Reserved Matters above.
